ESG ratings: whose interests do they serve?	All	This article explores the growing scrutiny of ESG ratings, which assess companies' sustainability performance. Regulators and politicians in Europe, Asia, and the US are seeking transparency and addressing potential conflicts of interest in these ratings. European lawmakers are considering legislation to enhance transparency, while US politicians are questioning ratings' agencies' methods. ESG ratings, unlike traditional credit ratings, are not yet subject to regulatory scrutiny on conflicts of interest and often rely on unaudited data.
