

ISSA Symposium 2025

Purpose

The Working Group's purpose is to research the key challenges and issues that impact the Domestic CSDs i.e. those who mainly serve their local market and international flows into that market. The aim will be to provide ideas and best practice guidance which may be applicable to the local market.

Domestic CSDs

Scope

Current in scope topics for 2025 include:

- Remote Network Due Diligence
- Managing Change from a CSD Perspective
- Mutualised Market Technology Solutions

Key Deliverables

Remote Network Due Diligence

- Industry Recommendations published (see [here](#))
- Engage with AFME, WFC and ACG on collaboration to simplify the processes in line with the recommendations. Carried forward to 2025

Managing Change from a CSD Perspective

- Publish a paper recommending a framework to effect change with minimal operational disruption and avoiding unintended consequence
- Provide best practice guidance for rules, systems and process

Key Deliverables (cont.)

Mutualised Market Solutions

- Publish a paper analyzing the feasibility of leveraging mutualised technologies and proposing potential models for consideration

Key Outcomes

- Assist the Securities Services industry in improving client outcomes, reducing risk and increasing efficiency of the local markets

Working Group Co-Chairs

- Femi Onifade, Central Securities Clearing System PLC
- Catherine Tinavapi, Standard Chartered Bank

Executive Sponsor

- James Fok, CMU OmniClear
