▪ Adam	Zgraja	Cofinpro AG
▪ Anna	Zubanova	Citi

Agenda

1. ISSA T0 Analysis
2. EU T+1 Program Status

1. ISSA T0 Analysis

Key Points Addressed

- Bill shared the current Outline of the T0 Analysis, some slides showing results of the ISSA Symposium Breakout Session on Accelerated Settlement plus the current roster of the 9 teams we are forming to brainstorm the business case questions for T0.
- The business case questions should revolve around all ten sets of activities, under each of the 3 models and the value proposition for all key market participant segments including:
 - Retail investors
 - Investment managers/institutional investors domestic and cross border
 - Broker dealers
 - Global and Local Custodians
 - Market Infrastructures
- Listed below are the nine teams along with how many members we have and how many we still need. We are looking to have 3 firms represented on each team, but we are open to more if we have additional volunteers.
- **Three Funding, FX, and Liquidity Activities/Themes:**
 - Domestic Funding (0 firms represented/at least 3 more firms needed)
 - International Trading and Funding (2 firms represented/at least 1 more firm needed)
 - Short Selling/Stock Loan/SFT (1 firm represented/at least 2 more firms needed)
- **Five Processes and Data flows Activities/Themes:**
 - Trading/Allocations/Confirmations (1 firm represented/at least 2 more firms needed)
 - CCPs and CSDs (1 firm represented/at least 2 more firms needed)
 - Funds (2 firms represented/at least 1 more firm needed)
 - Asset Servicing (3 firms represented/no more firms needed though more are welcome)
 - Regulatory(1 firm represented/at least 2 more firms needed)

- **Impact on the overall Technology Stack Theme** (1 firm represented/at least 2 more firms needed)
- **Note:** A tenth theme will be addressed after the work is completed by the nine teams listed above: “the need for other industries or major players to move in concert with the move T0”.
 - Trading,
 - Commercial banking
 - Payments
 - FX
- The WG should focus on the business case questions and avoid evaluations and answers at this point - - Global Business Case “Table of Contents”.
- In the paper we will make clear that markets should be clear about the key objectives for the T0 exploration:
 - Retail investor de-risking/protection
 - Overall market cost/risk reduction
 - Market competitiveness
- We will add to the paper a Case Study of the move to optional T0 settlement in India (to be supplied by NSDL).
- Bill asked all the members present to review the Amended Paper Outline and to let him know by COB on June 30 which of the nine teams they wish to populate themselves or with colleagues from their firms.
- If by July 1, we do not have sufficient participation to move forward, we will escalate to the ISSA Operating Committee to actively recruit members.

2. EU T+1 Program Status

Key Points Addressed

- Haroun briefed the WG members on the progress.
- The work is moving very quickly. A third full draft of the recommendations is under review by the members of the EU T+1 Industry Committee. The overall message is that there are no blocking obstacles to the EU moving to T+1 as planned in October 2027.
- The final report will be published on June 30 and a Launch Event is scheduled for July 3.
- This will be followed by a public consultation on the recommendations. While the Industry Committee will welcome all feedback, it is not expected to be very voluminous since so many firms across the EU have joined the workstreams and are providing input and are part of the conversations leading to the recommendations.

AOB and Close

No other business raised. The meeting was then closed.

Summary of Follow Up Actions

No.	Action Description	Responsibility	Deadline
1.	Read Amended White Paper Outline and notify Bill of the names of people in your firms who wish to join one or more of the nine teams exploring the sets of activities most impacted by a move to T0	WG Members	June 20
